RICHMOND BY-LAWS.

NO. 7 ROAD CANAL DITCH SCHEME.

A By-Law to provide for draining parts of the Township of Richmond and for borrowing on the credit of the Municipality the sum of \$6,121.50 for completing the same.

[Provisionally adopted 7th day of September, A.D. 1907.]

WHEREAS a majority in number and value of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the drainage, have petitioned the Council of the said Township of Richmond, praying that there may be constructed a canal ditch along No. 7 Road, from the south-west corner of Section 2, Block 4 north, Range 5 west, to the North Arm of the Fraser River, the works to be known as the "No. 7 Road Canal Ditch Scheme," and the property to be benefited thereby being comprised within the area described as follows:—

Commencing at the south-east corner of Section 7, Block 4 north, Range 4 west; thence running north on the section line to the North Arm of the Fraser River; thence westerly along the river bank to the point of intersection with No. 6 Road; thence southerly along said road to the south-west corner of Section 9, Block 4 north, Range 5 west; thence easterly along the section line to the point of commencement.

And whereas, thereupon the said Council procured an examination to be made by Mr. Ernest A. Cleveland, being a person competent for such purpose, of the said locality proposed to be drained, and has also procured plans and estimates of the work to be made by the said Ernest A. Cleveland, and an assessment to be made by him of the land to be benefited by such drainage, stating as he can the proportion of benefit which, in his opinion, will be derived in consequence of such drainage by every lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots, and parts of lots, hereinafter in that behalf specially set forth and described, and the report of the said Ernest A. Cleveland in respect thereof, and of the said drainage being as follows:—

"853, JERVIS ST., VANCOUVER, B. C.,
"April 29th, 1907.

"Frank N. Trites, Esq., Lulu Island, B. C.

"DEAR SIR,—Acting under your instructions I have made an examination of the route of the proposed canal ditch along No. 7 Road, Lulu Island, and have run levels over the ground, as shown on the annexed small tracing. The tracing shows as well the lands that will benefit from its construction.

"While there is no available descent to the land to provide a grade for the ditch, it may be built with perfectly level bottom, and will, with the proposed dimensions, carry off, at the proper stages of water in the river, a very considerable volume of water.

"The depth of excavation varies from 5½ feet to as much as 9½ feet.

"The accompanying specification details the shape and dimensions of the ditch.

"The quantity of material to be moved is 37,800 cubic yards.

"As an estimate of the cost, the following figures may be used:—

37,800 yards, at 12 cents per yard.... \$4,536
Sluice box 1,000
Incidental expenses 164

Total \$5,700

"The area of the lands directly benefited is shown by the Assessment Roll to be 4,081 acres.

"I might suggest that in raising the money necessary for carrying out the work, debentures for the sum of \$6,000 be issued, payable in 20 years. Reckoning interest at 6 per cent., together with sinking fund, the amount required to be raised by assessment each year would be about \$600, or approximately 15 cents per acre on the 4,081 acres.

"In my judgment, the benefit to be derived from the proposed work will be so generally distributed that a 'flat rate' of assessment should be levied for the whole area.

"Yours very truly,
(Signed) "ERNEST A. CLEVELAND."

And whereas the said Council is of opinion that the drainage of the locality described is desirable:

Be it therefore enacted by the said Municipal Council of the said Township Municipality of Richmond, pursuant to the provisions of the "Municipal Clauses Act":

1st. That the said report, plans and estimates be adopted, and the said drain, and the works connected therewith, be made and constructed in accordance therewith.

2nd. That the Reeve of the said Township Municipality may borrow on the credit of the Corporation of the said Township Municipality the sum of \$6,121.50, being the funds necessary for the work, and may issue debentures of the Corporation to that amount in sums of not less than one hundred dollars each, and payable within 20 years from the date thereof, with interest at the rate of 6 per centum per annum in semi-annual payments, such debentures to be payable at the Northern Bank, Vancouver, and to have attached to them coupons for the payment of interest.

3rd. That for the purpose of paying the sum of \$6,121.50, being the amount charged against the said lands so to be benefited as aforesaid other than lands belonging to the municipality, and to cover interest thereon for 20 years at the rate of 6 per centum per annum, the following special rates, over and above all other rates shall be assessed and levied upon the undermentioned lots and parts of lots; and the amount of the said special rates and interest assessed as aforesaid against each lot or part of lot, respectively, shall be divided into 20 equal parts, and one such part shall be assessed and levied as aforesaid in each year, for 20 years after the final passing of this by-law, during which the said debentures have to run.
